## Yonex Racket Serial Number Check

April 25, 2005 - Some counterfeit racquets can be identified by their serial numbers. If you're wondering if your racquet is fake, post it here so we can check for it. After you have learned about the participation of the racket in the competition, we must check if it is fake. There are several ways to do this. The first way: check the serial number on the label or sticker that usually goes on the package. The second way is to check the number on the frame (this is what judges and competition organizers look at before they announce the winners). The third way: look at the logo on the inside of the rim.
